

Bhumi Patel

Authorized to work for any employer in Canada

Contact no: +1(905)462-9163

Address: Milton, ON, Canada

Email: bhumipatel1196@gmail.com

LinkedIn: <http://linkedin.com/in/bhumi-patel-413416106>

Portfolio: <https://mibhumi.github.io>

Summary of Qualifications:

- ❖ Dedicated and innovative software developer with over 5+ years of experience in developing user-focused, efficient, scalable, adaptable and Single Page UI web applications with web and mobile development best practices
- ❖ Developed user interface by using modern front-end technologies such as HTML5, CSS3, SASS, ReactJS, React Native, Redux, JavaScript & TypeScript for SPAs development
- ❖ Proficient in building responsive user interfaces that seamlessly communicate with microservices through RESTful APIs, enhancing application performance, ability to debug and optimize code for performance, scalability and usability
- ❖ Strong proficiency in ReactJS, including experience with component-based development, state management, and routing
- ❖ Hands-on experience with Microfrontend and ReactJS with ES6 capabilities to construct common, reusable UI/UX components for future use
- ❖ Strong eye for design and a meticulous approach to creating good user experiences, creating web-based designs creating mockups, and interaction animations using Figma
- ❖ In-depth knowledge of Source Code Management tools such as Git and BitBucket including merging, rebasing, and pull-request branch strategy, and used JIRA to keep track of outstanding bugs to reduce downtime, increase productivity, and improve communication
- ❖ Conducted code reviews, ensuring adherence to coding standards and mentoring team members in best practices
- ❖ Experience in complete software SDLC which includes requirement, coding, design, analysis, testing, using Agile, Test-Driven methodologies
- ❖ work as part of a collaborative team and independently with an ability to thrive in a fast-paced production environment
- ❖ Self-motivated, Attention to detail, Goal-oriented with Excellent interpersonal skills and the ability to take leadership roles
- ❖ Strong organizational, verbal communication, collaboration, and excellent problem-solving skills

Technical Skills:

- ❖ **Tools, Technologies, and Editors:** JIRA, Slack, Visual Studio Code, Notepad++, Adobe XD, Zeplin
- ❖ **Programming languages and Frameworks:** JavaScript/ES6, React.js, React Native, Redux, Node.js, jQuery, Bootstrap, Material UI, Sass, Scss, ES6, TailwindCSS, npm, yarn, Jest, Flux, TypeScript, Babel, Parcel, Figma, Zeplin, Webpack, Angular, MudBlazor, OAuth, Express
- ❖ **Database:** MongoDB (NoSQL), SQL
- ❖ **Operating systems:** Linux, Ubuntu, Windows 7 and 10, macOS
- ❖ **Version Control Systems:** Git, Atlassian Bitbucket, Azure

Related Work Experience:

- ❖ UI software engineer

November 2023 - Present

Company Name: Standard BioTools, Markham, Ontario, Canada

Language and Tools: React, Laravel, CSS, HTML5, Redux, JavaScript, TypeScript, GitHub, Jest, Figma, .Net, Webpack, TailwindCSS

 - Developed and maintained client-side web applications to create, manage, and analyze panels using React, Javascript(ES6), C#, Laravel, Redux, Bootstrap, and Material UI
 - Integrated the backend and frontend through REST APIs to interact with the back-end and handle data exchange efficiently, incorporating web tokens for authentication, orchestrating state management with Redux, deploying functionality with React hooks, React Context API, lazy loading, code splitting, minimizing unnecessary renders for improved user experience
 - Defined application architecture and implemented scalable solutions to support new features and improvements
 - Implemented continuous integration and deployment (CI/CD) pipelines for faster and more reliable application releases
 - Developed and implemented backend code to manage database operations, including inserting, updating, and deleting records using SQL queries
 - Collaborate and coordinate with back-end developers to build consistent systems across the entire stack, integrate UI components with APIs and databases, product managers to enhance existing features and UI/UX designers to ensure seamless user experiences and cross-browser compatibility
 - Implemented RESTful APIs Contribute innovative ideas and solutions, with the flexibility to work across the tech stack and deliver high-quality code
 - Utilize Git for version control, following Agile methodology and Scrum practices for efficient project management
 - Contribute to providing valuable insights and innovative solutions to enhance application performance and user experiences
 - Contributed to Quality Analysis of the system by performing debugging, end-to-end manual testing and unit testing cases using Jest
 - Successfully generated and distributed development (Dev), User Acceptance Testing (UAT), and production (Prod) builds in collaboration with DevOps teams
 - Work with stakeholders, product managers, designers, and business units to execute the roadmap and support the multiple-banner
- ❖ Web Designer and Developer

March 2023 - October 2023

Company Name: VenueVision, Oakville, Ontario, Canada

Language and Tools: React, MudBlazor, CSS, HTML5, Redux, JavaScript, Material UI, GitHub, Jest, Figma, .Net, Blazer, NodeJS, C#, Webpack

 - Developed and maintained large-scale client-side web applications for payment solution using React, Javascript(ES6), C#, Redux, CSS, and Mudblazor for various local clients to manage their payment, account, maintain customers, and arrange campaigns
 - Collaborate and coordinate with back-end developers to build consistent systems across the entire stack, integrate UI components with APIs and databases, product managers to enhance existing features and UI/UX designers to ensure seamless user experiences and cross-browser compatibility
 - Implemented RESTful APIs to interact with the back-end and handle data exchange efficiently
 - Track record of working on authenticated, customer-focused applications, making OAuth2 a preferred environment

- Utilize Git for version control, following Agile methodology and Scrum practices for efficient project management
- Implemented continuous integration and deployment (CI/CD) pipelines for faster and more reliable application releases
- Demonstrated leadership qualities and contributed to an efficient and collaborative team environment

❖ **Software Engineer**

August 2019 - December 2022

Company Name: Kuliza Technologies - Finvolv, India

Language and Tools: ReactJs, React Native, CSS, HTML5, Redux, JavaScript, Material UI, GitHub, Jest, Typescript, Figma, TailwindCSS, SASS, NodeJS, AWS, Bootstrap

- Played a key role in building large-scale web and mobile applications related to financial services from the ground up, leveraging technologies such as React, React Native, JavaScript, HTML, CSS, java and Redux for various international and local clients like Standard Chartered-Kenya, CrediLinq
- Configured backend with front-end using REST APIs, used web token, implemented redux for state management, Developed custom React Hooks, and Worked with UI/UX team to develop pixel-perfect user interfaces using Figma and Zeplin
- Track record of working on authenticated, customer-focused applications, making OAuth2 a preferred environment, and I've spent 3 years enhancing these applications
- Collaborated closely with cross-functional teams to integrate front-end components with microservices, enhancing the overall user experience and optimizing data retrieval
- Created mobile responsive web designs, maintained brand consistency throughout the design, and ensured the quality of code
- Experienced in all phases of SDLC like requirement Analysis, Implementation, and maintenance with Agile Scrum
- Responsible for the charge of tech innovations and mentorship of intern trainees regarding existing systems and products
- Work closely with the product team to shape the future development of the product, providing valuable input and insights.
- Communicating with high-level clients regarding project requirements

❖ **Web Developer**

January 2019 - July 2019

Company Name: rtCamp Solutions Pvt Ltd, India

Language and Tools: Php, WordPress, CSS, HTML, JavaScript (ES6), GitHub, TypeScript, Docker

- Developed and maintained robust and scalable web applications using the Php, WordPress, Javascript, and TypeScript
- Responsible for responsive and adaptive design, and accessibility of web pages
- Assisted in creating a customized WordPress theme using front-end web technologies for the Website
- Implemented and maintained content management systems, including installation, configuration, Troubleshooting, and creating custom plugins and content types.
- Fixed bugs from existing websites and implemented enhancements that significantly to client projects and contributed to the open source plugin 'rtMedia' by solving GitHub Tickets
- Modify existing code needed and themes
- Responsible for adaptive design, and accessibility of web page
- Responsible for bug fixing and managing clients' projects and open source plugin 'rtMedia' by solving GitHub Tickets
- Manually tested sites in various browsers and mobile devices to ensure cross-browser compatibility and responsiveness

❖ **Project Trainee**

May 2018 - July 2018

Company Name: Infusion Infotech, India

Language and Tools: Java, Angular, CSS, HTML, JavaScript, GitHub, Bootstrap

- Worked towards creating an E-Commerce website- which was a platform for sellers to market and sell their products all over India, and for buyers to purchase the products with an easy user interface using Java, Angular and other web services
- Designed responsive web pages and created web API to enable data transmission from the backend
- Interfaced with user experience designers and other developers to ensure thoughtful and coherent user experiences

❖ **Project Trainee**

May 2017 - June 2017

Company Name: Eastern Techno Solutions, India

Language and Tools: jQuery, CSS, HTML, PHP, JavaScript, MySQL, Ajax, Bootstrap

- Worked on a project 'Sujok Automation'; It's a hospital management project whereby automation was introduced to the work done by Therapists and Doctors in respective centers in Surat, thereby achieving optimization.
- Admin can manage appointments, prescriptions, patients, and therapists, Therapists can attend to patients based on appointment scheduled, prescribe therapy and keep a note of it in the system.
- Tested sites in various browsers and devices to ensure cross-browser compatibility and mobile responsiveness
- Written modern, performant, maintainable code for the project

Education:

Master of Science in Information Technology

Academic Year: 2017 – 2019

Dhirubhai Ambani Institute of Information and Communication Technology, Gandhinagar, Gujarat, India

Bachelor of Science in Information Technology

Academic Year: 2014 – 2017

J.P.Dawer Institute of Information Science and Technology, Surat, Gujarat, India

Accomplishments:

- CSS Certificate from hackerrank
 - React: Testing and Debugging from LinkedIn
 - React-Basic Certificate from hackerrank
- React Hook from LinkedIn
 - Namaste React Bootcamp
